PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in SQL, Excel, Python, Power BI. Skilled in data cleaning, analysis, and interactive dashboard development to transform raw data into meaningful business insights. Strong analytical, problem-solving, and data visualization skills with a passion for data-driven decision-making.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL

Databases: PostgreSQL, MySQL, SQL Server, MongoDB

Data Visualization: Power BI, Microsoft Excel, Tableau

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-learn

Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis, Feature Engineering

Data Pipelines: ETL, Data Extraction, Data Transformation, Data Loading

Tools: Jupyter Notebook, Google Colab, Git, GitHub, VS Code

AI Tools: ChatGPT, Claude, Google Gemini

WORK EXPERIENCE

AI-Driven Web Application & Product Development Intern

June 2026 – July 2026

Lenovo LEAP NextGen Scholar Program (AICTE & BharatCares)

- Successfully completed a **6-week** AICTE internship in AI-Driven Web Application & Product Development.
- Gained foundational knowledge of Artificial Intelligence, web application development, and product development, while gaining practical exposure to modern technologies, development processes, and real-world project requirements.
- Strengthened analytical and problem-solving skills through structured training activities.

PROJECTS

Churn Analysis & Customer Intelligence (Python, SQL, Pandas, NumPy, Matplotlib, Seaborn) [GitHub](#)

- Built an end-to-end churn analytics pipeline by integrating customer, subscription, and support data using SQL and Python.
- Identified 28.6% overall churn, with monthly-contract customers showing 55.6% churn vs. 8.3% for annual contracts.
- Analysed churn by plan, geography, tenure, contract type, and support escalations to identify high-risk customer segments.

HR Analytics Dashboard (SQL, Power BI & Excel)

[GitHub](#)

- Created an HR Analytics Dashboard to track employee performance, attrition rate & etc.
- Used Excel & Power BI to visualize HR KPIs and provide insights for better workforce decision – making.

Super Store Sales Dashboard (Power BI & Excel)

[GitHub](#)

- Built an interactive Dashboard in Power BI to analyze sales, profit, orders, and regional performance.
- Used Excel & Power BI to create data visualizations, KPIs, maps, and monthly sales trend analysis for business insights.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

2023 – 2027

Bachelor of Technology in Information Technology

CERTIFICATIONS & ACHIEVEMENTS

- Google Data Analytics Professional Certificate – Coursera
- SQL (Advanced) Certificate – HackerRank
- Data Analysis with Python – IBM
- Secured Top 10 among 100+ participants in a data analytics competition.
